

SurfTech® Turfmark T6

grass line-marking paint

Description

SurfTech® Turfmark T6 is a highly-concentrated water-based paint designed for application to natural grass and shale sports surfaces.

SurfTech® Turfmark T6 is formulated using acrylic resin technology which provides for optimum adhesion and a highly durable line irrespective of climatic conditions.

Uses

SurfTech® Turfmark T6 is used to line-mark activity areas on natural grass and shale sports surfaces.

The acrylic resin content of SurfTech® Turfmark T6 ensures optimum adhesion, durability and colour stability.

Its free-flowing formulation makes for a quick and easy dilution in water, with the paint being applied by any suitable line-marking machine.

SurfTech® Turfmark T6 can also be used as a base to mark different coloured lines.

Application

SurfTech® Turfmark T6 can be applied by any suitable spray or transfer-wheel machine (contact our Technical Services Department).

Application

SurfTech® Turfmark T6 should only be applied in fine, dry weather and when these conditions are likely to prevail for 1-2 hours following application.

Recommended Dilution Rates

Initial Marking: 1 part SurfTech® Turfmark T6 to 3 parts water.

Over Marking: 1 part SurfTech® Turfmark T6 to 6 parts water.

Note: The dilution of the concentrate at the point of application is under the control of the user and may be adjusted to suit the condition of the surface.

Drying Time

Approximately 30 minutes at 20°C.

Note: drying time is dependent on surface dampness, ambient temperature and relative humidity levels. If applied to a damp surface, at temperatures below 20°C or in cool, damp air, drying times will be extended.

Colouration

Using SurfTech® Turfmark T6 Colourants (see the SurfTech® Turfmark T6 Colourants' Technical Data Sheet), SurfTech® Turfmark T6 can be used to mark lines in the following colours: red, yellow, blue and green.

Packaging

12.5 litre jerricans.

Shelf Life

SurfTech® Turfmark T6 has a shelf life of approximately 6 months in original un-opened packaging.

Storage

Store in dry conditions above 5°C.

Avoid frosts and temperatures above 35°C.

Health & Safety

SurfTech® Turfmark T6 is a water-based, paint, making it relatively safe to use and minimising the risk of environmental impact from its usage.

For full information refer to the material's current Health and Safety datasheet.
